# Budget Workshop July 7, 2025, at 6:00 p.m. Town Center 2<sup>nd</sup> Floor Conference Room Agenda

- I. Call to Order
- II. Citizens' Appearance
- III. Introduction
- IV. Presentation and discussion regarding the General Fund:
  - A. Expenditure Summary
  - B. Capital Outlay
  - C. Mayor and City Council Budget
  - D. Revenue Summary
- V. Presentation and discussion regarding assessed valuation and tax rate.
- VI. Presentation and discussion regarding the Debt Service Fund:
  - A. Revenue Summary
  - B. Expenditure Summary
- VII. Discussion regarding Fund Balance Policy and Audited Excess Revenue Allocation Guideline
- VIII. Discussion regarding General Fund and Debt Service Fund
  - IX. Citizens' Appearance
  - X. Adjournment

# General Fund Expenditure Summary

# Debt Service Fund Summary

The mission of the Debt Service Fund is to account for the payment of principal and interest on the City's general obligation debt. Revenues come mostly from the interest and sinking portion of the property tax rate and can only be used to make the principal and interest payments on the debt. Revenues also include a transfer in from the Water and Sewer Fund and Coppell Recreation Development Corporation (CRDC) Fund for the portion of debt issued for water sewer and CRDC projects.

# City of Coppell, Texas Fund Balance Policy

# 1. Purpose

The purpose of this policy is to establish a key element of the financial stability of the City by setting guidelines and parameters for fund balance of the various funds used by the City of Coppell. Unassigned fund balance is an important measure of economic stability. It is essential that the City maintain adequate levels of unassigned fund balance to mitigate financial risk that can occur from unforeseen revenue fluctuations, unanticipated expenditures, and similar circumstances. Advantages of a fund balance policy are as follows:

- Enhances the quality of decisions by imposing order and discipline
- Promotes consistency and continuity in decision making
- Demonstrates a commitment to long term financial planning objectives

#### 2. Definitions

Fund Equity – A fund's equity is generally the difference between its assets and its liabilities.

Fund Balance – An accounting distinction is made between the portions of fund equity that are spendable and nonspendable. These are broken up into five categories:

- Nonspendable Fund Balance includes amounts that are not in spendable form or are required to be maintained intact.
- 2. Restricted Fund Balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers either constitutionally or through enabling legislation.
- 3. Committed Fund Balance includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally.
- 4. Assigned Fund Balance comprises amounts intended to be used by the government for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that the resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.
- 5. Unassigned Fund Balance is the residual classification of the general fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose.

#### 3. Policy Statement

#### **Committed Fund Balance**

The City Council is the City's highest level of decision-making authority and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is an ordinance or resolution approved by the Council at the City's Council meeting. The ordinance or resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

## **Assigned Fund Balance**

The City Council has authorized the City Manager or Director of Finance as the officials authorized to assign fund balance to a specific purpose as approved by this fund balance policy.

#### **Unassigned Fund Balance**

The unassigned fund balance for the General Fund of the City of Coppell will be maintained at a level sufficient to provide the required resources to meet operating cost needs, to allow for unforeseen needs of an emergency nature, and to permit orderly adjustment to changes resulting from fluctuation of revenue sources.

## 4. Order of Expenditure of Funds

When multiple categories of fund balance are available for expenditure, the City will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

## 5. Funding Levels

The City establishes the following funding levels concerning fund balances in the various funds used by the City of Coppell:

• The annual budget shall be presented to Council, with each fund reflecting minimum ending funds balances as follows:

General Fund 10% of the next years budgeted expenditures as required by

City Charter, plus 15%. (Approximately 60 to 90 days). For undesignated fund balance, the target is no less than 50% of

budgeted expenditures.

Debt Service Funds An amount of one (1) month of next years budget for principal

and interest

Water and Sewer Fund 180 days of expenditures

Self-Insurance Fund Maintained at a level equal to the average of:

- 35% of the following years budgeted claims as provided by

the City's benefit consultant, and

- the average of six months of actual claims based on the

most recent 24-month period.

Cemetery Fund 60 days of expenditures

Crime Control Special

Revenue Fund 25% of the next year's budgeted expenditures

Infrastructure 25% of the next year's budgeted revenues as it relates to sales

Maintenance Fund tax.

Coppell Recreation

Development Corp 25% of the next year's budgeted revenues.

Hotel Occupancy Tax 25% of the next year's budgeted revenues.

Drainage Utility District 25% of the next year's budgeted revenues.

 Fund balances, which exceed the minimum levels established for each of the funds, may be appropriated as shown in the Financial Projections section of the City of Coppell's Five-Year Plan.

- Fund balances, which exceed the minimum levels established for each of the funds, may be appropriated for non-recurring capital projects or programs. The Council recognizes that any such funds should be appropriated for non-recurring expenditures as they represent prior year surpluses that may or may not materialize in subsequent fiscal years.
- The City of Coppell will exercise diligence in avoiding the appropriation of fund balance for recurring operating expenditures. In the event fund balance is appropriated for recurring operating expenditures to meet the needs of the community, the budget document shall include an explanation of the circumstances requiring the appropriation and the methods to be used to fund this operating expenditure in the future.

## 6. Monitoring and Reporting

The City Manager and the Director of Finance shall annually prepare a report documenting the status of the fund balances with this policy and present to the Council in conjunction with the presentation of the Comprehensive Annual Financial Report and also in conjunction with the development of the annual budget.

## 7. Replenishment

Should the fund balances fall below the targeted level, the Council must approve and adopt a plan to restore the balance to the targeted level within two (2) years. If restoration can not be accomplished within such period without severe hardship, then the Council will establish a different but reasonable time period.

# City of Coppell, Texas Audited Excess Revenue Allocation Guideline

# I. Purpose:

The purpose of this guideline is to establish parameters and provide guidance governing the allocation of annual audited excess revenues of the General Fund, and to provide for monitoring for compliance and conformity with the guidelines and procedures presented below.

#### II. Procedures

- After acceptance of the audited annual financial report in late February or early March, the amount of excess revenues over expenditures will be determined.
- During the Five-Year Forecast process, staff will identify trends and strategies to address those trends.
- The amount of fund balance over the 10% charter required, the 15% policy required, and the 50% of budgeted expenditures required to remain in undesignated fund balance will be used to address trends and provided for in the assigned fund balance of the General Fund.
- The amount to be allocated to assigned fund balance will be the excess revenues over expenditures from the audited report less:
  - Any one-time revenues such as sale of land or insurance reimbursements
  - Any changes in designated fund balance items such as the increase/decrease in the charter required 10% and the 15% as adopted in the fund balance policy
  - An amount that creates an undesignated fund balance that is equal to at least 50% of next year's budgeted expenditures (Floor).
- The available to allocate will be designated in fund balance for one-time expenditures such as:
  - 2040 one-time projects
  - Infrastructure projects
  - Economic Development Programs
  - Strategic Reserve

#### III. Monitoring and Reporting

- Annually, a detailed accounting of the sources and uses of funds allocated will be presented during a Council budget workshop.
- The adopted annual budget for the following fiscal year will include the items included in the assigned fund balance.
- Each year, during the budget workshop process, the guidelines will be revisited to determine if adjustments to the guidelines need to be incorporated.
