

MEMORANDUM

To: Mayor and City Council

From: Ken Griffin, P.E., Director of Engineering and Public Works

Date: November 14, 2017

Reference: Dallas County Master Interlocal Agreement

2030: Sustainable City Government, Goal 3
Excellent and Well-maintained City Infrastructure and Facilities

Introduction:

This agenda item is being presented for approval of a Resolution to enter into a Master Interlocal Agreement with Dallas County for maintenance and improvements to city streets.

Analysis:

From time to time city staff works with the Dallas County Road & Bridge staff for maintenance of asphalt streets and drainage improvements. Most of this work is funded through our Infrastructure Maintenance Fund. When we contacted Dallas County to begin work on this year's asphalt rehabilitation work, they requested that we update this Master Agreement. The last time we updated this agreement was December 2014. The term of the proposed agreement runs through December 30, 2022.

This agreement provides terms under which the County and City agree to partner to work on maintenance of City infrastructure. Approval of the agreement does not require us to use Dallas County forces to work on any particular project. Each project requires a Project Specific Agreement to be approved by City Council, or the City Manager depending on the value of the specific project.

Legal Review:

This Master Interlocal Agreement and Resolution was reviewed by Alexis Allen.

Fiscal Impact:

The approval of this agreement has no fiscal impact.

Recommendation:

The Engineering Department recommends approval of this agreement.
