Subject: 3 Months Extension for Filing of the Final Plat for Villas of Southwestern

To

Gary Sieb
Planning & Zoning Division
City of Coppell, Texas

Dear Gary Sieb

The engineering work for Villas of Southwestern has been done by Beta Inc. However, we requested some minor modifications to the plans already submitted to the city of Coppell. It is being currently handled by a different engineering company called JDJR. We will file for final plat once the engineering work is finished by JDJR. We request a extension of the deadline for 3 months for filing of the final plat.

Ramana Juvvadi
