

MEMORANDUM

To: Mayor and City Council

From: Kent Collins P.E., Director of Public Works

Date: December 13, 2022

Reference: Consider approval of a Resolution authorizing the Mayor of the City of Coppell, Texas, to execute an Interlocal Agreement (ILA) with the City of Lewisville for Emergency Treated Water Supply.

2040: Sustainable Government

Introduction:

The purpose of this agenda item is to request approval of a Resolution authorizing execution of an ILA with the City of Lewisville to establish two emergency water interconnects between the two treated water systems.

Background:

Staff has been working with the City Council to reduce water system risks through pursuit of a water system redundancy project. This project includes improvements to Village Parkway Pump Station to allow for system maintenance and rehabilitation; and emergency interconnects with neighboring water systems to provide water supply in the event of supply loss from Dallas Water Utilities. This ILA will allow construction of two emergency interconnects (near Denton Tap/Highland Drive and MacArthur/Lake Vista) and identifies the operating terms and responsibilities. A separate ILA with the City of Grapevine is included on the agenda. Council has already approved a design agreement with BGE for the design of these emergency water interconnects.

Benefit to the Community:

Well-maintained City infrastructure is essential to residents' wellbeing and the use and enjoyment of their homes. This agreement is part of the ongoing effort to maintain City infrastructure to the level of service expected by the community.

Legal Review:

The City Attorney has reviewed the ILA.

Fiscal Impact:

There is no fiscal impact for this ILA.

Recommendation:

The Public Works Department recommends approval of this item.
