Manager's Report

- Community Experiences has released the summer catalog featuring the new library hours.
- Our library team will be switching to Teams Phone next week. Please give the library grace as we work through a new system.
- Our reservation system is also down as it is not authenticating users in our ILS. We are working on a solution.
- It is National Library Week! Our leadership team and Friends of the Library have been celebrating our staff all week.
- I also want to thank our librarian team for their efforts to host our library open house today. It was held for city staff from 12-4 pm and included information about the power of your library card, programming, and our collection.
