DISCUSSION:

This is a request to convert 1,132 square feet of the second floor of the clubhouse building into a residential apartment. The remainder of the multi-family units are not being modified.

Floor Plan (2nd Floor Apartment)

The applicant is proposing to convert an event room and two small restrooms into a one-bedroom apartment unit. The apartment unit construction will incorporate fire separation modifications between the apartment unit and the other clubhouse spaces as required by the building code. Entrance to the unit will be directly from the exterior via an existing balcony and stair, without need to pass through the other clubhouse spaces.
