These plans are intended to provide the basic construction information necessary to construct the project. They are not to be used for construction without being checked by the builder or person in authority of this project. Any discrepancy, error and/or omissions, if any, are to be brought to the attention of the Designer prior to any construction of the project. It is the responsibility of the Designer to provide a complete engineering specification for foundation, HVAC, and structural, prior to construction of any kind. NOTE: All plans, specifications, and conditions, and regulations, laws, codes, and local codes, ordinances, and regulations, shall apply to this work, and must be strictly obeyed and followed before and after construction.
