

MEMORANDUM

To: CRDC Board

From: Vicki Chiavetta, Director of Library Services

Date: May 1, 2015

Reference: Status Update on the Library Expansion

The expansion of the William T. Cozby Public Library that was approved by the CRDC and Council continues to progress towards construction. Staff has been working with the architect on several levels, including functionality of the space, value engineering of the budget and specific technology needs of the library. In addition to this work, library staff have been planning a move to a temporary facility along with determining what services will continue to be provided to the community and the logistics of providing such services. An update on the status of the project will be presented to the CRDC Board.
