

MEMORANDUM

To: Mayor and City Council

From: Ken Griffin, P.E., Director of Engineering and Public Works

Date: May 24, 2016

Reference: Design for Reconstruction of Town Center Boulevard

2030: Sustainable City Government, Goal 3
Excellent and Well-maintained City Infrastructure and Facilities

General Information:

- Town Center Boulevard was originally constructed in the early 1990's.
- Engineering Services contract for design is \$71,890.00
- Estimated construction cost is \$520,000.00

Introduction:

This agenda item is being presented for approval to enter into a design contract with JQ Infrastructure LLC in the amount of \$71,890.00 for paving reconstruction of a portion of Town Center Boulevard from the Town Center Shopping Center to north of the intersection of Town Center Drive.

Analysis:

In order to provide excellent and well maintained city infrastructure, the citizens of Coppell authorized the use of ¼ cent sales tax revenue to be allocated for the reconstruction of our streets. Through an analysis of all streets within the City of Coppell, this portion of Town Center Boulevard was identified as in need of reconstruction. The engineering design is budgeted in the 2015-2016 fiscal year.

The item before you this evening will involve engineering design for paving reconstruction. The project improvements will include completing storm drainage improvements and full paving and sidewalk replacement within the project limits.

Enhancement of the existing storm drainage collection system and new city sidewalks will also be part of the full paving reconstruction portion.

Legal Review:

The City's standard construction contract has been reviewed by legal periodically, with changes made as requested.

Fiscal Impact:

The fiscal impact of this Agenda item is \$71,890.00 for the street reconstruction design.

Recommendation:

The Engineering Department recommends approval of this contract with JQ Infrastructure LLC.
