WINGSTOP

Upon arrival at the job site, if you find any differences between the drawings and the actual physical characteristics of the building which may require repositioning of the signs, or if someone on the job site tells you to install the signs in a different position than is called for on the drawings, stop immediately and call one of the following for authorization:

Starlite Sign - Project Manager / Diana Collins or Salesperson / David Scott 940-382-8850. Failure to do so may result in the installer having to bear the expense of reinstalling the sign in the correct position and possibly the expense to repair damages to finished surfaces.
