Hello Mary,

I would like to request an extension for the Blackberry Farms plat. With the event of the current virus situations, I think we need to request an additional six month extension.

For some good news, we received verbal approval from Joe at the Corps of Engineers Monday approving our 404 permit. He said that we should receive a written approval shortly.

Is there a form that we need to fill out? David Hayes is no longer with us therefore I'm covering his workload. Thank you for the help. Terry
