

MEMORANDUM

To: Mayor and City Council

Through: Mike Land, City Manager

From: Traci E. Leach, Deputy City Manager

Date: September 22, 2020

Reference: COVID-19 facilities Update

Introduction:

This agenda item is an update to the City Council on the current public facing facilities/in-person services throughout the City. This presentation is an opportunity to share the issues and considerations that have been given to the current state of our facilities that are open to in-person service. Additionally, it will provide information about our decision-making as we look forward into the winter and into next calendar year.

As we continue throughout the year, inquiries from the community have been received regarding timing of re-opening the remaining components of City facilities. The goal of the presentation is to provide the Council and community with information to respond to those questions with facts about how we're making those decisions to re-open to in-person service.

Legal: None.

Fiscal Impact: None.

Recommendation: No Council action is necessary for this item.
