

February 26, 2021

TO: Mr. Kumar Gali
Assistant Director of Public Works
City of Coppell Capital Improvement Program
255 Parkway Blvd.
Coppell, TX 75019

RE: Stream G6 Channel Stabilization – Coppell, Texas
City of Coppell Project No. DR-19-02, Bid No. Q-0221-02
Walter P. Moore and Associates Project No. C04-19021
Recommendation of Reward

Dear Mr. Gali:

We have reviewed the final bids from each contractor for the above referenced project. There are five bids ranging from \$958,100.00 to \$1,787,200.00, and we have performed a tabulation of the bids (attached).

A&B Construction LLC	C. Green Scaping, LP	J.B. & Co.	KEC Retaining Walls	HQS Construction
\$958,100.00	\$981,273.43	\$1,199,959.00	\$1,527,916.06	\$1,787,200.00

The low bidder is A&B Construction LLC (A&B). A&B provided references regarding three similar projects. All projects they provided were as a subcontractor to a general contractor on City of Plano erosion control projects with gabions and tiebacks. The contacts they provided in their references were the prime contractor on two projects and a city inspector on the third. The inspector and the prime contractor expressed positive experiences with A&B Construction regarding schedule and budget. We have contacted the CIP Manager of City of Plano and he expressed that the project was well managed by Mr. Abraham.

We recommend that the City accept the bid and award the contract to A&B Construction LLC. If you have any questions, please don't hesitate to contact us at 214.740.6200.

Sincerely,

Walter P. Moore and Associates, Inc.

Ernest L. Fields, P.E.
