Consider approval to award Bid # Q-0217-03 for rugged laptops and accessories to TelRepco in the amount of \$181,137.50; and authorizing the City Manager to sign.

The standard lifecycle replacement of Fire and Police Department rugged laptops is every three years. The current equipment has reached the age for replacement. This fiscal year we have identified the need to procure 38 Panasonic CF-20 Toughbook laptops. These units will be installed in both the Fire and Police Department fleet vehicles. Therefore, there are several accessories required that include, vehicle docks, antennas, and cabling. These units will replace the existing Toughbook's. Replacing and adding this equipment will meet the Information System's Strategic Plan goal of maintaining a modern and current working environment.
